REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present application relates to the control of a hydraulic clutch applied to a power train of a vehicle comprising an automatic transmission. According to the claims, in combination with other features, there is provided determining a tentative pre-charge period based on the pre-charge pressure to fill the interior of the clutch prior to engaging the clutch and the temperature of the hydraulic fluid supplied to the clutch, calculating a voidage in the interior of the clutch based on the elapsed time following a release of the clutch and the temperature of the hydraulic fluid, determining a pre-charge period based on the product of the tentative pre-charge period and the voidage, and causing the oil pressure supply unit to pre-charge the interior of the clutch for the pre-charge period.. The aforementioned limitations and combination thereof are not taught in the prior art. In light of the foregoing, the claims of the present application are found to be patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacques H. Louis-Jacques whose telephone number is 571-272-6962. The examiner can normally be reached on M-Th 5:30 AM to 4:00 PM.
